101 Genomes
Genomics for Rare Diseases

01

PROTECTIVE GENES

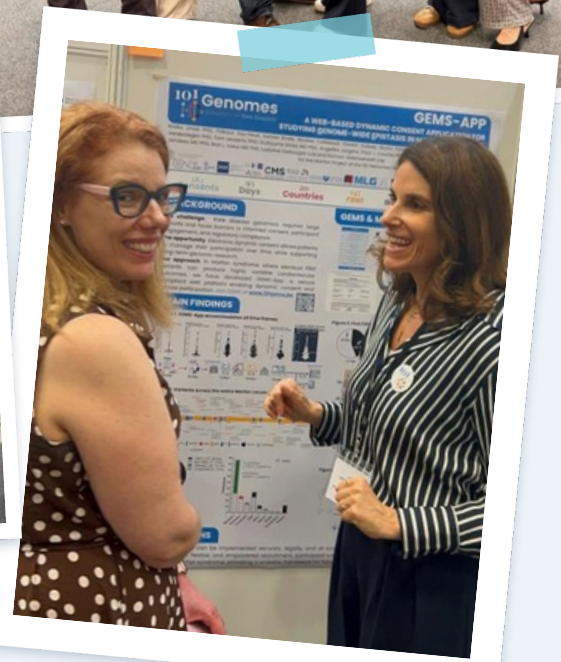

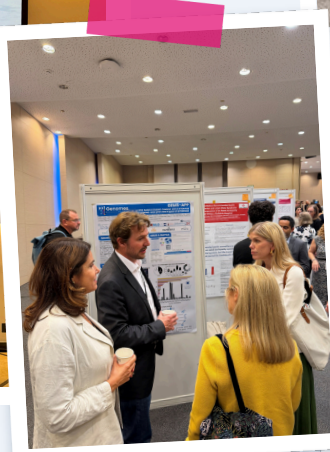

A potential protective modifier gene

Bart Loeys presented promising results from the first GEMS study in collaboration with 101 Genomes

02 POSTER SESSIONS

Problem-solving together

03

INNOVATION AWARD

for Tal Golesworthy

His background as an engineer helped shape the development of PEARS.

The standing ovation said it all: so many patients, families and professionals have been touched by his work – including us!
